In conjunction with the repurchase offer, the bondholders have accepted repurchases corresponding to a nominal amount totalling SEK 318.75 m. The price for repurchased bonds was 101.00% of the nominal amount and was paid together with accrued interest during the quarter.

 universities, with the aim of improving methods of identifying and preventing gambling problems. LeoVegas will
 contribute by providing data and financing.

EVENTS AFTER THE END OF THE QUARTER

GROUP PERFORMANCE Q4

REVENUE, DEPOSITS AND NGRS

Revenue totalled EUR 99.5 m (98.2) for the fourth quarter, corresponding to an increase of 1% compared with the preceding year. Organic growth in local currencies was 6%.

In the Nordic countries, NGR increased 9% year-on-year. Sweden posted another good quarter driven by new records for the brand Expekt.

In the Rest of Europe, NGR increased 4% year-on-year. The UK and Spain posted healthy growth during the period while Germany continued to negatively impact the region's sales.

In the Rest of World region, NGR decreased 15% year-onyear. The trend was favourable in most markets in the region, but growth was adversely impacted in the short term by the company closing a couple of smaller markets in the region earlier in the year.

EARNINGS

Gross profit for the fourth quarter was EUR 65.8 m (65.3), corresponding to a gross margin of 66.2% (66.5). Gaming taxes totalled EUR 18.8 m (17.3), corresponding to 18.9% of revenue (17.6). Cost of sales was 14.9% of revenue (15.9) and consisted mainly of costs for external game and payment service providers.

Marketing costs during the quarter totalled EUR 34.7 m (33.8). Marketing expenses corresponded to 34.9% of revenue in the fourth quarter, which was in line with the year-earlier period (34.4), but lower compared with the preceding quarter (38.3).

Personnel costs in relation to revenue increased year-on-year to 17.7% (14.2). A provision for the company's incentive programmes for management impacted personnel costs during the quarter by EUR 0.9 m (0.0). Personnel costs in relation to revenue amounted to 16.5% in the preceding quarter. The company's investment in highly qualified employees, specifically in technology and products, as well as the increase in the total work force, led to increased personnel costs during the year. The company sees a continued need to increase resources in the area of technology in the years ahead.

Other operating expenses amounted to 16.6% (10.8) of revenue. A major proportion of the increase was the result of provisions for player claims in two markets. The increase was partly the result of items affecting comparability during the quarter of EUR 0.7 m, which was driven by transaction-related costs.

Other revenue of EUR 0.6 m (0.1) has increased during the quarter as a result of the sale of a customer database of EUR 0.5 m.

Reported EBITDA was EUR -2.6 m (11.6) during the period and included, as mentioned above, a number of items affecting comparability totalling EUR 1.1 m (0.0). These were attributable to transaction-related costs and provisions for incentive programmes, which in total amounted to EUR 1.6 m. Items affecting comparability also included revenue for the sold customer database of EUR 0.5 m.

The Group's depreciation and amortisation excluding acquisition-related depreciation and amortisation totalled EUR 3.9 m (3.1). Amortisation related to acquired intangible assets totalled EUR 1.2 m (2.4). In the third quarter of the preceding year, Royal Panda's acquired customer database became fully amortised, which is the main reason for the year-on-year decline. From 2022, the customer database related to the acquisition of LeoVegas UK's Rocket X is also fully amortised.

Operating profit (EBIT) for the quarter was EUR -2.5 m (6.1), corresponding to an EBIT margin of -2.5% (6.2). Adjusted EBIT for the quarter was EUR -0.2 m (8.5), corresponding to an adjusted EBIT margin of -0.2% (8.6). Adjusted EBIT gives a more accurate picture of the Group's underlying earnings during the period.

Net financial items amounted to EUR -2.5 m (-0.9) and mainly related to interest on the company's bond issues. As the result of the repurchase offer for the company's bonds, financial expenses increased EUR 0.5 m (0.0) during the quarter. The company has also received financing through a shareholder loan of EUR 66.0 m during the quarter, of which interest expenses increased EUR 0.6 m. Within net financial

items, ongoing remeasurement of the bond in SEK has affected the outcome as well as the change in value of the currency derivative that was contracted for the initial bond issue with a total of EUR -0.2 m (0.3).

Income tax for the quarter totalled EUR -1.7 m (-0.9). During the quarter, the company's deferred tax assets in the Parent Company, related to loss-carryforwards for probable future gains, were remeasured, which entailed a tax expense totalling EUR 2.1 m.

The share of profit after tax from associated companies recognised in accordance with the equity method was EUR -0.1 m (-0.1) and pertained to the company's minority stake in BeyondPlay.

Net profit for the quarter was EUR -7.8 m (4.2), corresponding to a net margin of -7.8% (4.3). Adjusted net profit for the quarter totalled EUR -5.1 m (6.6).

BALANCE SHEET AND FINANCING

Cash and cash equivalents at the end of the fourth quarter amounted to EUR 70.1 m (75.2). Cash and cash equivalents, excluding player funds, amounted to EUR 47.5 m.

In the fourth quarter, the company repaid the revolving credit facility (RCF) of EUR 40.0 m and a shareholder loan has instead been obtained of EUR 66.0 m. The company's bonds outstanding at the end of the quarter amounted to EUR 34.1 m (67.8). As a result of the change of control event and the delisting from Nasdaq Stockholm, bondholders had the right to redeem bonds outstanding at a price corresponding to 101.00% of the nominal amount and including any accrued interest. The repurchase offers expired on 14 November and 28 November respectively, and have thus concluded. In conjunction with the repurchase offer, the bondholders have accepted repurchases corresponding to nominal amounts of SEK 203.75 m and SEK 115.00 m, respectively. The total nominal amount repurchased therefore amounted to SEK 318.75 m. The bond expires in December 2023 and is therefore classified as a current liability, which also coincides with the expiration date of the company's currency derivative (OTC derivative). The bond had a market value of SEK 706,958,000 in its entirety as per the end of the balance sheet date. The bond, after repurchase, had a market value of SEK 385,039,625 as per the end of the balance sheet date.

Net debt excluding player liabilities in relation to adjusted EBITDA (rolling 12 months) was 2.6x (0.3).

At the end of the quarter, equity attributable to owners of the Parent Company amounted to EUR 49.2 m (78.0). Non-controlling interest made up EUR 2.9 m (6.2) as of the balance sheet date. Total assets amounted to EUR 284.4 m (257.3).

Total liabilities increased year-on-year, mainly as the result of the company's total financing structure as of the balance sheet date. Accrued expenses, primarily driven by continued provisions for the company's gaming taxes in Austria, as well as a higher share of trade payables, were other reasons for the increase. In addition, the company's net position, as a result of the market value of the company's currency derivative (OTC derivative), increased year-on-year.

CASH FLOW AND INVESTMENTS

Cash flow from operating activities totalled EUR -1.6 m (7.5) for the quarter. Working capital declined during the period but may be volatile from quarter to quarter and is affected by factors such as jackpot provisions, incoming and outgoing payments between LeoVegas and product and payment service providers, and advance payments for licences and marketing. Working capital also includes deferred payment of gaming taxes in Austria, amounting to EUR 20.8 m (16.1) and provisions for the company's exclusive jackpots.

Cash flow from investing activities totalled EUR -5.8 m (-4.6) and pertained primarily to capitalised development costs.

Cash flow from financing activities totalled EUR -3.6 m (-6.5) and was mainly impacted by the company financing shareholder loans of EUR 66.0 m (0.0), the repayment of the bank facility of EUR -40.0 m (0.0) and payment concerning the repurchase offer of the company's bonds of EUR -29.2 m (0.0). Amortisation of the lease liability, i.e., rents paid for the Group's right of use assets, had an accounting effect on cash flow from financing activities of EUR 0.5 m (0.5). No dividend has been paid to shareholders during the quarter (-3.9).

PARENT COMPANY

LeoVegas AB (publ), the Group's Parent Company, invests in companies that offer gaming via smartphones, tablets and desktop computers, as well as companies that develop related technology. Gaming services are offered to end consumers through subsidiaries. The Parent Company is not engaged in

any gaming activities. The Parent Company's revenue for the quarter totalled EUR 0.3 m (0.2). Profit after tax was EUR - 5.4 m (27.1). Profit is steered by dividends from subsidiaries, interest expenses for credit facilities, interest income from lending to subsidiaries, invoiced management services and other operating expenses. During the year, no dividends from subsidiaries were taken up as revenue since no dividend is expected to be paid to shareholders during the year. During the quarter, a reclassification has taken place in the Parent company's income statement. Only invoicing revenue relating to management services is reported as revenues. The classification follows previous years' presentation.

During the quarter, the company's deferred tax assets were remeasured, which entailed a tax expense totalling EUR 2.1 m.

Cash and cash equivalents amounted to EUR 1.3 m (7.1). The Parent Company has one bond issue of EUR 34.1 m (67.8), which expires in its entirety in December 2023 and is therefore classified as a current liability as of the balance sheet date. As the result of a change in ownership with MGM Casino Next Lion, LLC and the delisting from Nasdaq Stockholm, a right arose (but no obligation) for the company's bondholders to redeem the company's bonds outstanding. The repurchase offers expired on 14 November and 28 November respectively, and have thus concluded. In conjunction with the repurchase offer, the bondholders have accepted repurchases corresponding to nominal amounts of SEK 203.75 m and SEK 115.00 m, respectively. The total nominal amount repurchased therefore amounted to SEK 318.75 m. The price for repurchased bonds was 101.00% of the nominal amount and was paid together with accrued interest during the quarter. The company's bank facility of EUR 40.0 m was repaid during the quarter and financing has instead been taken up through Group companies totalling EUR 6.7 m (o.o). In connection with the initial bond issue of SEK 500 m, a currency derivative (OTC derivative) was contracted. The value of the currency derivative was a liability on the balance sheet date and amounted to EUR 4.8 m (0.9). The derivative expires in December 2023 and is therefore classified as current. Financial items during the quarter were charged with EUR 1.6 m (0.7) net by interest expenses, transaction costs

and other related costs coupled to the bond financing and repurchase offer. The increased financial expenses are the result of the repurchase offer and the market value of the currency derivative.

SEASONAL VARIATIONS

Customers use LeoVegas' gaming services year-round, which means that seasonal variations tend to be relatively low. In general, activity is impacted by the customers' life patterns such as holidays and time off as well as the sporting events calendar.

RELATED PARTY TRANSACTIONS

No transactions with related parties occurred during the quarter. For more information on previous years, please refer to the company's annual reports.

ACCOUNTING POLICIES

The consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IAS/IFRS, as endorsed by the European Union) issued by the International Accounting Standards Board, interpretations issued by the IFRS Interpretation Committee (formerly IFRIC), the Swedish Annual Accounts Act, and Swedish Financial Reporting Board (RFR) standard RFR 1 "Supplementary Accounting Rules for Groups". This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting. The Parent Company's financial statements have been prepared in accordance with the Swedish Annual Accounts Act and recommendation RFR 2 "Accounting for Legal Entities." Disclosures in accordance with IAS 34.16A are provided – in addition to in the financial statements – in other parts of the interim report.

The most important accounting policies under IFRS, which are the accounting policies applied in the preparation of this interim report, are described in Note 2, pages 82–86, of the 2021 Annual Report. All of the accounting policies are unchanged since the most recently published annual report for the 2021 financial year.

ALTERNATIVE PERFORMANCE MEASURES

In this interim report, reference is made to measures that LeoVegas AB and others use in the evaluation of the Group's performance that are not explicitly defined in IFRS. These measures provide management and investors with important information to analyse trends in the company's business activities. These Alternative Performance Measures are intended to complement, not replace, financial measures that are presented in accordance with IFRS. For definitions, see the section "Definitions of Alternative Performance Measures."

ADJUSTED PROFIT MEASURES

LeoVegas presents adjusted profit measures to provide a more fundamental picture to readers of reports by showing earnings that more closely reflect the Group's underlying earnings capacity. The adjusted profit measure is adjusted for items affecting comparability, which are defined in the section "Definitions of Alternative Performance Measures."

RISKS AND UNCERTAINTIES

The main risk and uncertainty that LeoVegas faces is the general legal status of online gaming. Decisions and changes in laws and regulations may affect LeoVegas' business activities and expansion opportunities. Since most of LeoVegas' customers are active in Europe, the legal status in EU-related jurisdictions has most significance for the company's existing operations. However, developments outside the EU are also of interest, partly because parts of LeoVegas' existing operations may be affected, but mainly as they may affect the company's expansion and future outlook.

LeoVegas is active in a large number of regulated markets, and the Group's compliance is reviewed on a regular basis by regulatory bodies, such as local gaming authorities. If it were to be shown that interpretations and measures taken by the company to ensure compliance with a licencing authority's requirements are insufficient, it could lead to costs for the company in the form of sanction fees or other punitive measures.

The regulations and requirements are changing continuously, which in turn puts greater demands on the company's internal routines, processes and systems. Higher demands are also being put on LeoVegas' business partners, such as third-party

game vendors, payment service provides and marketing partners. LeoVegas conducts thorough due diligence of new partners before a cooperation can begin. Existing partners are also reviewed on a regular basis. In the event of a violation of the Group's collaboration terms, LeoVegas has the opportunity to withhold payment and terminate its collaboration with the partner in question. Developments in the legal area are monitored and assessed on a continuous basis within LeoVegas, and the Group cooperates with the authorities in the licenced markets.

LeoVegas' offering is based on gaming as a fun and attractive form of entertainment. Consumer protection is therefore an important part of the design of LeoVegas' offerings and in its customer contacts. LeoVegas has technical aids at its disposal and clear routines for countering unsound gaming. Responsible gaming is regulated in all gaming licences that LeoVegas conducts its gaming activities under. LeoVegas works together with local trade associations to promote sustainability and responsibility in the industry. These include, for example, the Swedish Trade Association for Online Gambling (BOS) in Sweden and the Norwegian Industry Association for Online Gaming (NBO) in Norway.

The long-term risks and impacts of the global pandemic have been and are hard to assess, and the conditions are changing continuously. The pandemic has had a smaller impact on online businesses and has led to an accelerated structural shift from offline to online. This is beneficial for LeoVegas, with its strong online position, strong brands and proprietary technical platform that enables rapid development in an increasingly digital world.

In addition to the above are risks associated with significant estimates and assessments in the financial reporting. The consolidated financial statements are based partly on assumptions and estimations in connection with the preparation of the Group's accounting. Estimations and assessments are evaluated on a continuous basis and are based on historical experience and other factors, including expectations about future events that are deemed to be reasonable given the prevailing circumstances.

LeoVegas conducts operations across borders and complies with regulations such as corporation tax and indirect taxes in a number of jurisdictions. The tax environment is complex

and LeoVegas evaluates and makes continual assessments concerning the company's tax positions. LeoVegas could be negatively affected by judicial rulings, settlements and costs associated with legal processes and investigations, and disputes, and could be the subject of legal action in the future. LeoVegas could incur costs in this regard if it were to be unsuccessful in such legal processes and investigations. A determination of potential provisions for corporation tax and indirect taxes is subject to complexity and uncertainty, requiring extensive estimations and assessments.

Other risks that could affect LeoVegas include financial risks, such as currency and liquidity risks. The 2021 Annual Report includes a detailed description of the company's risks as well as more information about the significant estimates and assessments used in the preparation of the Group's financial reports.
